Press Release

Drops Mobile Electronics Announces The Launch Of
The New Web Site:

www.dropsmobile.com is your electronic one stop electronic shop

Norcross, GA November 8, 2009: Drops Mobile Electronics is the premier mobile car stereo company servicing Atlanta and the southeast for over ten years. Drops Mobile Electronic specializes in installation and product sales for any vehicle and will install your product or ours. We consistently stay on top of the market with the latest trends and new products by offering convenience, knowledgeable and professional staff, and cutting edge technology.

Drops Mobile Electronics comes to you! We have a fleet of mobile units to service your electronic needs at any location. Whether is your product or a product purchased, Drop Mobile can perform installations for your car, home, RV, boat, golf cart and more.

We understand that our customer's time is valuable and that's why we're your one stop shop. Our new website allows you to review the services and brands we offer as well as review our portfolio of previous installations performed. In addition to the updated website, Drops Mobile has launched an online electronic store that enables customers to review, research, and compare products before making purchases. It also gives the customer confidence with their selection by visually displaying products, price, features and benefits.

Drops Mobile Electronics interactive electronic store provides you with the convenience of shopping from your computer. The interactive site gives the option of having your purchases delivered directly to you or have them sent to us and we'll bring your products on your scheduled installation appointment. The online electronic store lets the consumer review products, make selection, determine the services need, and have a Drops Mobile Electronic certified technician complete your service.

We believe in 100% customer satisfaction, therefore Drops Mobile Electronics stands behind their workmanship and offers a reasonable return policy. Please review our customer service ratings on kudzu.com.
